## Work experience

Before joining the team of **Arpinge** in February 2014, he held the position of CEO at **Industria e Innovazione**, a listed holding company mainly active in the Real Estate industry (development and urban renovation of brownfield sites) and in the Energy sector (biogas power generation and other renewable sources), where he also worked as a manager of the Finance & Control Department.

Working at **Industria e Innovazione** Group, he also held managing positions in subsidiaries and affiliates companies both in the RE and industrial estate sector, whether in Italy or abroad.

Between 1999 and 2006, he worked at **Alerion Industries** as a managing director and as Chief operating officer, directly responsible for the *financing* and *execution* of major M&A transactions and development projects carried out by Alerion Group, whether in the energy field (both renewable and fossil fuels), or the RE sector (development and trading). In the same period, he collaborated, as a managing director, to the foundation and the start up of REAM SGR promoted by the Group.

Before joining the team at **Alerion**, he was responsible of *corporate ratings* analysis at **Itarating DCR**, first Italian rating agency then acquired by Fitch. Prior to that, he worked in the Credit Department of **IMI**, with increasing responsibilities in the *lending* to SMEs in Central Italy.
