Work experience

Working at **Arpinge** since november 2015, as Head of Strategic Planning and Control and involved in investment process.

He previously worked in F2i Sgr, first in the Investment Team, where he followed, among the others, the acquisition of Alerion CleanPower and ENEL Stoccaggi, in charge of the analysis and the evaluation of equity investments. Afterwards he joined the Portfolio Management and Finance Dept. where he set up the management control unit, following the performances of subsidiaries in the areas of gas, highways, airports, water supply, renewable energy, WTE, telecommunications, logical networks. He also served as board member in various subsidiaries belonging to F2i's portfolio.

From 2004 to 2007 he worked in Simest SpA as member of the Investment Team, promoting and evaluating Italian foreign direct investments in non-EU member Countries, with a particular focus on the following industries: infrastructure, services and manufacturing.

From 2003 to 2004, he served in ANAS SpA, where he was mainly involved in the development of the "revenue plan for market related activities".

From 2000 to 2003, he worked in Accenture as a consultant in the pharmaceutical production management and corporate information systems implementation.
